Monthly consumption* in Igbo-Eze South, June 2014 – May 2015

*Implants and injectables are examples of popular long-acting and short-acting methods and have been selected here to show general consumption trends of family planning.

Facilities with FP trained health workers that are not providing FP

This indicator identifies the facilities that should be providing FP (because they have a trained HW) but are not. There may be several reasons why they are not providing FP. For example, they may be stocked out. Call the facilities listed here to find out whether they are stocked out, require additional mentoring, or are facing another barrier to service provision. When conducting supportive supervision, target these facilities.

Facilities					
Iheaka Basic Health Clinic	Our Lord's Hospital and Maternity Home	Anyanwuanyasi Health Clinic	Itchi Cottage Hospital	Ovoko Health Centre	Salvation Hospital (Igboeze South)
