

Family Planning Dashboard - LGA Report

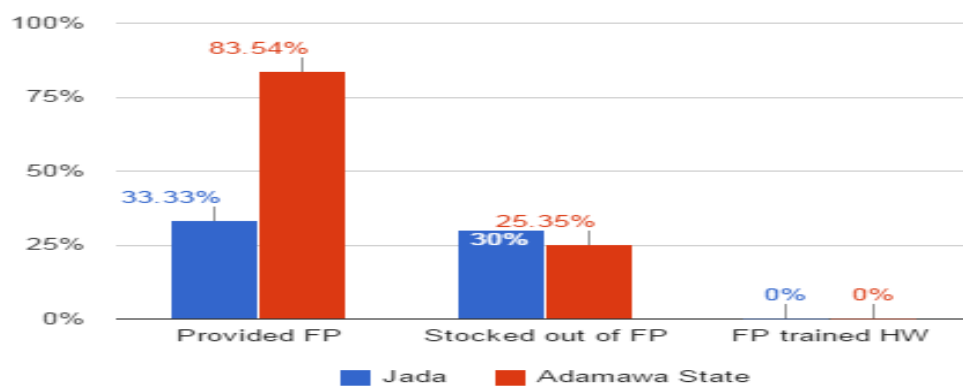

LGA: Jada

State: Adamawa State

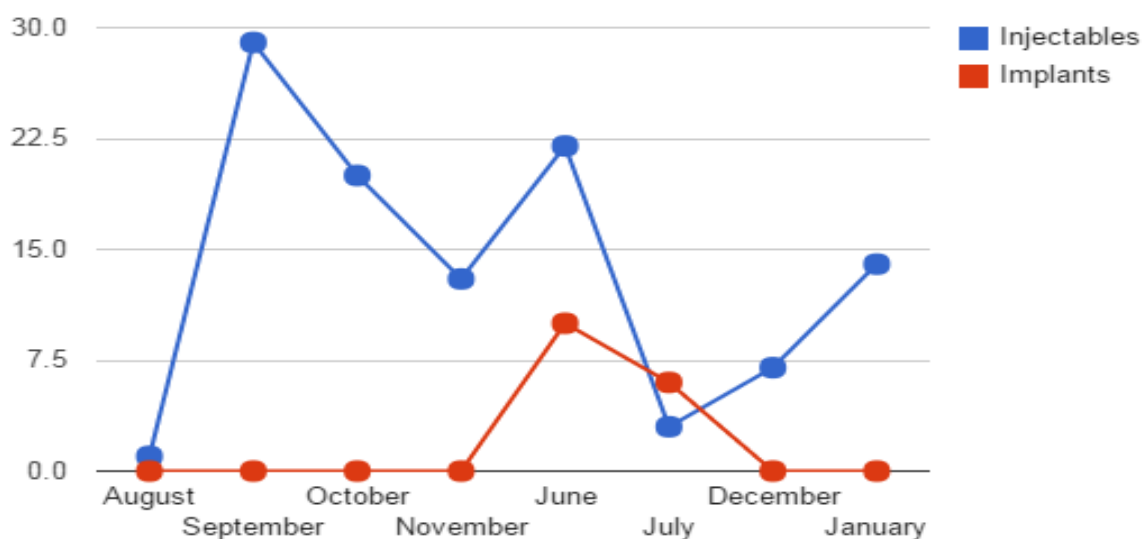

Month: May, 2015

Facility summary, May 2015

Monthly consumption* in Jada, June 2014 – May 2015

*Implants and injectables are examples of popular long-acting and short-acting methods and have been selected here to show general consumption trends of family planning.

Facilities with FP trained health workers that are not providing FP

This indicator identifies the facilities that should be providing FP (because they have a trained HW) but are not. There may be several reasons why they are not providing FP. For example, they may be stocked out. Call the facilities listed here to find out whether they are stocked out, require additional mentoring, or are facing another barrier to service provision. When conducting supportive supervision, target these facilities.

Facilities					
Farangyan Maternity Home	Nyibango Health Post	Mbangan Essande Health Clinic	Gangsanji BHealth Clinic	Dimkusum Health Clinic	Jamtari Health Clinic
Jarandi Health Post	Abejo Health Post	Kojoli Maternity Home	Kamenya Health Post	Warri Mission Clinic	Lengdo Health Clinic

FP facilities stocked out for 7 days

This indicator identifies facilities that have provided FP in the last six months but reported a stock out of any FP commodity for seven consecutive days during the current month. Call these facilities to find out what commodity is stocked out and arrange an emergency shipment of stock from the LGA store.

Facilities
Danaba Maternity Home
Jada 11 Primary Health Care Centre
Saman Health Post

Percent of FP facilities in the state stocked out for 7 days: 25.35%

LARC facilities stocked out of implants

This indicator identifies the facilities that have provided at least one implant over the last six months but are stocked out of implants during the current month. Call these facilities to arrange an emergency shipment of stock from the LGA store. Ensure the facilities are connected to the FP commodity distribution system and are using CLMS forms correctly.

Facilities

Percent of LARC facilities in the state stocked out of implants: 40%
